

Audit Operations - Weekly Control Review

ACL TEST TYPE: TEAM ONLY

Authorized team: Audit Operations

Purpose

This document contains the weekly workflow used by the Audit Operations team to manage control-review activities.

Weekly Workflow

The team reviews open audit requests, verifies evidence submissions, records control-test exceptions, assigns remediation owners, and tracks overdue actions.

Test Facts

The weekly review board is identified by marker AUDIT-OPS-WEEKLY-52. The team uses Friday as the standard remediation-status review day.
